

Dear Parents

At DAV International, the utmost endeavour has always been to provide the best facilities, facilitators and infrastructure to make the school journey as fun – filled, fulfilling & fruitful as possible for a child. But all this is not possible without the support of parents which you all have been rendering time and again for the past so many years. Extremely beholden for the same, I am hopeful of a healthy collaboration with you, in the times to come, in the following pivotal matters of the school :-

1. Kids and teens do better in school when parents are involved in their academic lives and attending Parent – Teacher meetings are a wonderful way to do so. The school conducts PTMs at regular intervals with the motive to establish a rapport between parents and teachers and develop a common goal that focuses on helping the children have the best possible school experience, which can be possible only if the parents attend these meetings as per the prescribed schedules. In case of any unavoidable circumstances, make sure to inform the school authorities.
2. School diaries and Snap Homework are great ways to keep parent - teacher communication alive by keeping them informed about the child's performance as well as the latest school updates. It is obligatory on the part of parents to be though with the rules & regulations of the school mentioned in the school diary and also keep a track of the everyday class works & home works of your ward updated on the Snap Homework App.
3. For various reasons, English language has earned the status of International Link Language in today's world of information technology and hi – tech communication, thereby making it mandatory for our children to learn its usage. We, at DAV International, besides giving due regard to the National and Regional languages, lay equal emphasis on all the four basic English Language Learning Skills to enable the students thrive in the modern global world. You are strongly recommended to provide such a learning atmosphere at home as well.
4. The parents have to arrange for the transportation of their ward to the school as the school doesn't own any vehicle to transport the students. A private vehicle can be hired by contacting the private vehicle operators. Keeping in mind the "Safe School Vahan Scheme" of the government specially implemented for the safety of school children. The school authorities are very strict with regard to the implementation of the above said scheme and have even banned the defaulting transporters. The parents must submit a written undertaking in the school office stating that they have assured the safety of the vehicles hired by them under the safe school vahan policy.

It is obligatory on your part to extend your co-operation in persuading the private transporters to follow the safe school vahan policy. Report to the school authorities immediately when you come across any vehicle transporting the school students, violating the government instructions on safety measures. Discipline is one of the basic requirements of a civilized life. To make the students responsible, worthy and law-abiding citizens of the society, the school follows a code of conduct with regard to uniform, behavior, attendance, class tests, homework & class work assignments, games etc and it is mandatory for each & every DAVIAN to follow it. Strict action may be taken in case of the defaulters.

6. I am full of appreciation for the majority of those parents who have always been co-operative with regard to the timely payment of fees. But it has been observed in the past years that many parents fail to clear their fee dues as a result of which their wards remain in the category of Fee Defaulters till the end of the session so it is expected from all of you to be very particular in depositing the Fee Installments timely.
7. The school provides highly qualified and experienced faculty who render their best possible services to the students. There is also a provision of extra classes for the slow learners which completely negates the need of extra tuitions for the students. It is advised to the parents not to burden yourself as well as your child by sending him/her for tuitions after school hours and rather let him/her have sufficient time at hand for self-study.
8. Being good in academics, sports or other Co-Curricular activities does not ensure the promotion of a student to the next class. For the all round personality development of our children, a good conduct in all the fields is the most important requisite. Any misconduct or misbehavior on your ward's part can hinder his / her continuity in the school.
9. Kindly guide the kids to be very cautious on their way back from school to home, not wander here and there aimlessly and not to encourage any stranger.
10. Internet, these days, is a great way to stay up to date, do research for school projects, communicate with friends & relatives all over the globe, but, at the same time, it can also be very harmful. Be cautious to make sure that your child stays safe online. A good understanding of computer and internet use can better enable one to protect ones child. Consider it as an important piece of advice, implement it and secure your child's future.

I earnestly aspire for your genuine support in all the above - mentioned disciplinary measures for a safe, sound and secure future of our children.

Highly optimistic of your co-operation.

With regards

Principal
