TIPS FOR PARENTS

At this decisive time in your ward's life, I offer a few examination tips to you too.

1. Be available for your child to address any concerns. Knowing that someone is always there for them can make a huge difference to their mental well being.
2. After the exam, listen to their concerns and avoid criticizing them as it may increase stress for next exam.
3. Deal with child's examination stress, anxiety and negative statements with positive attitude and encouraging statements.
4. Provide emotional support and create right environment for studies.
5. Do not constantly nag children to study. Ensure that they take break and allow breathers.
6. Contact Class Teacher/Subject Teacher/School Counselor if your ward is unable to handle Examination pressure.

Let us together, you and we, make the examination, a tension free and a pleasant experience for the children and help them face it boldly.
