DAV UNITED FESTIVAL 2018

The DAV United Festival 2018 was a mega event, a celebration first of its kind in the history of DAV. The 3 days Festival testified the spirit of oneness and embodied the essential value of growth over harmony. The contribution of D.L.DAV Model School, Pitampura, in this regard, was a clear example of how holistic, the nature of learning is, in the school. Hand in hand with its illustrious alumni, students and staff of the institution gave unparalleled performances in the field of dance, music, photography, theatre, art, fashion and a lot more.

Pillar of Strength

Arya Rattan Dr. Punam Suri

Recipient of Padma Shri Award 2017
President, DAV College Managing Committee
& Arya Pradeshik Pratinidhi Sabha

Educational Institutions are expected to be the centre of creativity and innovation, generating new ideas, creating new designs, printing new mosaics, painting new canvases, shifting paradigms and constantly nurturing, developing and evolving. The whole process creates a new generation of happy and healthy children who eventually grow up to be responsible students of a global society. I am delighted to note that DLDAV Model School, Pitampura never loses sight of this vital aspect of education. It has been a great pleasure to watch and appreciate the achievements of this educational institution, that has taken great strides in all spheres of its development. The school is growing at a remarkable pace and the children are growing with it.

I firmly believe that a strongly led school can withstand all challenges of times. The dynamic leadership of Principal Mrs. Anita Wadehra and her excellent staff team have upheld a child centred ethos as the school sets new standards in education and looks ahead with confidence for future achievements.

Dr. N.K. Uberoi

Vice President, DAVCMC
Chairman DLDAVMS, Pitampura

The school enjoys a special place in the arena of education and stands out for its value driven education which transforms it into an exceptional environment for teaching and learning. This environment sharply focuses on research preeminence and processes and pedagogies which rest on the premise that independent discovery effortlessly leads to academic excellence. The classrooms throb with an atmosphere of exuberant discovery and superior learning is encouraged through project and programmes that are enjoyable and relevant to students' lives and experiences. Education is rooted in universal ethics, in appreciation of common humanity and a compassionate way of relating to each other. A strong value system permeates the whole culture of the school with the conviction that just information is not education. The key is to harness the ancient values and be innovative with the modern. The students of this school will beyond doubt make themselves stronger day by day, adding a new leaf to the grandeur of the institution.

Shri R. S. Sharma

General Secretary, DAVCMC

Standing at the vanguards of the revolution in education, the school is committed to stimulating a zeal for perpetual learning. It accentuates critical thinking and scientific fervor and instils a healthy cultural rootedness that combines the best of traditional values with modern and progressive sensibilities. It strongly believes in harnessing the power of knowledge by combining learning with extensive application-based study, thus maximizing one's overall potential and nurturing a winning mentality of students. While emphasizing reflexivity, flexibility, diversity, inclusion, collaboration as key values, the school aspires to craft an ethos of heuristic and metacognitive pedagogy, critical engagement, meaningful experience, thereby creating the perfect launchpad for leaders of future.

Shri T. R. Gupta
Vice President, DAVCMC

The success of the school ever since it was established in 1981 can be attributed to its ability to continually identify and respond to the changing demands across the highly rising education sector. Beyond providing a sound education, it provides its students a holistic learning experience for life. It teaches students to learn, not just study. Hence, it strives to travel beyond the boundaries of mere books. The school realizes the truth that the future is abstract and unknown but the children in its hands are real and can be moulded. Backed by a radical approach, in-depth study and progressive education, learners at the school are empowered to become reflective individuals, through enriching experiences that equip them with knowledge, skills and values to become successful leaders capable of imparting meaningful change in the global society.

Dr. Nisha Peshin
Director PS-II, DAVCMC

DLDAV Pitampura is a young, student centered, future driven, vibrant institution which embraces the core values of academic distinction while keeping pace with the fast changing landscape of higher education. It takes pride in its commitment to push the boundaries of knowledge, challenge conventional practices and create leaders of tomorrow. It is no less than a transformational leader which can drive academic excellence with a global impact in the creation of new knowledge. The school also provides a diverse, inclusive and entrepreneurial ambience to stimulate the spirit of futuristic thinking. Besides, collaborative engagements and student exchange programmes have strengthened curricular research to create a world class learning ecosystem. As values and wisdom diminish in the society day by day, the school is shouldering the mammoth yet delicate task of nurturing young minds with aplomb and dedication.

Mrs. Adarsh Kohli
Manager, DLDAVMS, Pitampura

'There is no greater thing you can do with your life and your work than follow your passions – in a way that serves the world and you,' said Sir Richard Branson. The above maxim clearly depicts the school's vision to encompass all the domains of the childrens' personality to give them unhindered growth and let them evolve to their fullest potential and discover the star within. The uncompromising pursuit of perfection has been the greatest driving force of the school all through. It prides itself on the 'multiple learning outcomes', curricular and co-curricular programmes, on the highly positive attitude and behavior of the students and on the constant focus by our professional staff on developing, personalizing and transforming teaching approaches to best meet the needs of students. The institution is firmly rooted in the vision and dream of its great predecessors and their ideals give it the strength to persevere and carry their legacy forward.

Mrs. Anita Wadehra

Principal

The school stands out for its value driven education which transforms it into an exceptional environment for teaching and learning. It has held on to consistency with an unprecedented streak and continues to distinguish itself with it round the year and round the clock quality adherence, thus, readily meeting the soaring expectations of the academic world. The focus on ethical and emotional intelligence, deepened relationships, social cohesion and a strong value culture goes a long way in giving students the best chance of success. The cosmos of the learner is based on the foundation of natural growth and enrichment. The evolution of the child is harnessed with a progressive curriculum and multi-dimensional co-curricular activities. The state-of-the-art infrastructure, tender mentoring, inclusive education and child centric approach, rank the school as an institution par excellence. The unwavering support of the management, parents, staff and students gives the school the solid edifice on which rests its pinnacle, striding from strength to strength. Undoubtedly, the school is committed to prepare leaders of tomorrow.

Global Perspective - Cambridge Wing

The Cambridge Wing of the School, affiliated with CAMBRIDGE ASSESSMENT INTERNATIONAL EDUCATION is a gateway to a global learning community. Participation in global learning activities through various initiatives aims at uncompromising commitment towards holistic development of students and grooming ethical global citizens.

Cambridge Pen Friends project allows the exchange of peace and cultural

views between the students of different countries, by exchanging cards globally.

Events like Praestantia- An array of international interschool online competitions, Fantasia, Quizzical not only connects school with other institutions but also creates networking among different schools globally like schools from Chennai, Chandigarh, Afghanistan, Russia and others.

The Cambridge curriculum is blended with virtual learning sessions through skype that offers live transformative educational experiences for students, including Virtual Field Trips, Crescendo, talks from Guest Speakers, classroom to classroom connections and live collaboration projects like online kahoot Quiz and Global Virtual Classroom.

Kiddie Cove

The serene and joyous ambience of the Junior wing at TP Block helps and nourishes the little bundles of joy to delve deeper into the ocean of fun and experiential learning. The formative years of education are embellished with jewels namely quest, curiosity and fondness to learn, and henceforth to grow and glow.

The school has been continually striving to achieve holistic development of the children. Plethora of theme based and other activities are undertaken to hone their skills. Celebration of festivals, kids carnival and special assemblies are conducted.

The school has been celebrating childhood, nurturing understanding and breeding success.

School Alumni - Eternal Bonding

'An organisation's alumni are the reflection of its past, representation of its present and a link to its future.' The school alumni are the brand ambassadors of the institution. They are making their presence felt by their zealous organization of several activities. The colossal strength of DAV fraternity and DAV alumni was visible on the occasion of DAV Utsav. The school was entrusted important responsibilities and greatly appreciated for it. The school alumni have been proactively involved in school activities. A number of alumni have taken the initiative of sponsoring fee of needy, meritorious students. Sunday Funday activity, when old students gather in school on Sundays to participate in sports activities or friendly matches, fosters the spirit of love and friendship.
